

ANUJ DANDONA

Research Consultant

Anuj Dandona joined Lord Cultural Resources - South Asia as a Research Consultant in 2016. A proactive planner with dexterity in identifying and adopting emerging trends, Anuj possesses good analytical abilities and research experience in Science Centre and City and Museums.

He is presently working on the Dr. A.P.J. Abdul Kalam Science City Project, Patna (Bihar) & Al-Maktoum Hospital Museum Project, Dubai (UAE). His contributions include Master Planning, Interpretive Plan, Client Relations, Content, On-site Research and conducting Interviews and preparing Reports.

Prior to joining Lord Cultural Resources, Anuj has worked in different capacities; as Manager-Integrated, Marketing and Communication at a media company, and in Product Development at a technology company. He is a recipient of a two-year Fellowship by National Council of Science Museums (NCSM), Kolkata under Ministry of Culture, Government of India. As a Postgraduate Research Fellow with NCSM, Anuj gained hands-on experience in diverse science communication activities of the council with an emphasis on first-hand application of modern communication and display techniques. He has experience in exhibit design and development, museum evaluation, visitor research and museum management and operations. He is also skilled in integrated marketing and communication, and maintaining corporate and client relationships. In the past, he has interned with several technology companies.

Anuj Dandona holds a Masters of Science degree in Science Communication from the Birla Institute of Technology and Science (BITS), Pilani and a B.Tech degree in Electronics and Communication Engineering from Lovely Professional University. He has attended and contributed to several national and international conferences, summits & workshops on museum evaluation, visitor research, and IT and health technologies.

Anuj has a passion to always keep learning and keep a tab on current affairs.
